## DESIGN OPS AND SYSTEM MANAGER

### & THE DESIGN TOKENS BOOK'S AUTHOR

## I WORKED FREELANCE

### DESIGN SYSTEM MANAGER / DESIGN OPS

**La Redoute** \_ Lille Region \_ January 2023 - May 2024

Serving in a hybrid role of Lead Designer and Product Manager within a prominent e-commerce player during a period of inflation. Spearheaded CX department evangelization. Overhauled and unified libraries. Led technical evangelization on Storybook and Chromatic. Initiated front-end overhaul through Design System implementation. Established processes and tools.

**Prisma Media** \_ Paris \_ September 2022 - January 2023

Held a dual role as Lead Designer and Product Manager within a large-scale media corporation amidst a change management environment. Conducted component audits. Achieved alignment between stakeholders and IT management on key initiatives. Developed processes and tools internally.

**SendInBlue** \_ May 2022 - September 2022

Fulfilled a hybrid role as Lead Designer and Product Manager in a rapidly expanding organization with a focus on design change management. Devised and streamlined processes. Steered the design system roadmap. Established a cross-functional contribution program (Design & Dev).

**BCG Platinion x KPMG** \_ June 2021 - December 2021

Change management, established product-level processes, and created and administered the design system. Implemented tools and routines, evangelized system adoption, and documented processes and systems for organizational alignment and efficiency.

**Usabilis x Xelians** \_ November 2020 - June 2021

Managed a multi-design system environment, conducted evangelism and training, created and administered design systems. Validated production outputs. Provided technical evangelization for Storybook and Chromatic.

## PRODUCT & SERVICE DESIGNER / STRATEGIST

**Clients : BCG Platinion x Sanofi / TEREOS - Digital Lab / ENGIE**

Consulting / Industrial / Energy sectors - Paris Region - 2018 and then 2020  
Change management, conducted user interviews, designed interfaces, created component libraries, and managed functional backlogs. Oversaw project scoping and management, and led workshop creation and facilitation.
